The receipts to-day were about the same as a week ago and only a little larger than a year ago. On account of the very light supply and a few urgent shipping orders the market opened with very strong competition between buyers, and the first sales were made promptly at a gain of 5c to 10c in prices over yesterday. The pace set by shippers, however, was a little too strong for packers, and they soon began to show signs of weakness. This naturally influenced the demand from outside sources, and subsequently there was less life in the trading and a weaker tendency in values. It was generally admitted that

ion to medium lambs. od to choice yearlings ... Horses—The marketing of horses continues of good volume, fully 300 head having arrived for the regular sale of the Warman-Black-Chamber-

lain Company, against 175 a week ago and 300 a year ago. All classes of horses were represented in the arrivals, and the quality generally was equal to the standard of the past few weeks. There was a better attendance of buyers than last week, which, of course, made a greater outlet, and the demand being good competition was strong and the market was active throughout the day. Prices in a general way were strong compared with the way equal kinds sold last week, while frequently horses that were considerably above the average of their class sold a little higher. Dealers generally would not admit that there was any decided improvement in the market, but they all agreed that sales were fully up to expectations. For an extreme orses as high as \$250. The good chunks and raft horses sold usually from \$140 to \$175, and naller chunks and workers from \$75 to \$125. here were not a great many drivers good enough to bring over \$150, but quite a number sold from to bring over \$130, but quite a humber sold from \$100 to \$135 and the smaller horses from \$40 to \$90. The most important consignment in the auction was from George W. Black, of Greencastle, one the oldest and best-known horse men in the ite. He has always been a liberal patron of a market and has done much to promote the de at this point. His consignment consisted of

Corn cattle steady to 10c higher; quarantine steady; cows 10c higher; stockers and feeders active and strong. Seton's "Hall of Fame."

rable suggestion for a Western Hall of Fame at St. Louis next year, it has been suggested that a conspicuous place shall be given to that grand old pioneer of advanced religious thought, Brigham Young. Just at this time, when we are considering seriously what to do with our old college chum Smoot, it seems particularly fitting that we should soften the asperities and promote good feeling by a graceful tribute to the eminent public services of Mr. Young. It is further proposed that "there shall be four large historical pictures illustrative of the deeds of the pioneers," and we venture to hope that one of these pictures will be a spirited portrayal of the Mountain Meadow massacre, a pleasant episode connected intimately with the pioneer work of Mr. Young and his comrades of the dear old days. This and his comrades of the dear old days. This is an era of good feeling—barring Smoot—and we should selze every opportunity to demonstrate to our esteemed Morton fellow-citizens that we recognize their earnest efforts to develop the country and help on immigration. If we decide to permit Utah to select its own senator we shall make other concessions indicative of our tolerant and forgiving spirit.

BRIEF OPENING SPENT UNDER MA NIPULATIVE INFLUENCES.

After that the Course of the Market Was Downward-Monetary Conditions Receive Scant Attention.

NEW YORK, April 7.-The weakness which developed in to-day's stock market bore witness to the disappointment felt in speculative circles at the failure of what are considered favorable developments in the situation to awaken any sign of inter- New Telephone Company.......... est in speculation on the part of the outside public. Call money was no higher than 6 per cent. at any time, and fell lower than that on large offerings by the banks. There was some lending on call also by stock commission houses, which have supplied their expected needs with time loans and have money on their hands now, owing to the practical stagnation of the commission business in stocks at present.

be a factor in the stock market. Great hopes have been entertained that the advent of this condition would arouse some speculative interest in securities and would afford opportunity to begin to move the undigested mass with which the market is weighted down. Not much prospect was offered by the day's events of any effective assimilation of the congestion of securities. in which is involved the embarrassing tie-up of credits which threaten the future facilities of the money market. The indefi-nite postponement of the Southern Pacific annual meeting was viewed in a more encouraged spirit this morning, owing to its insurance of the indefinite prolongation of the present control of that property, but renewed uneasiness was felt over the position of the speculative pool in Southern Pacific stock. The extension of the pool carries it only to April 10, and the sug-gestive weakness of the stock to-day had a weakening sympathetic effect on the market. There was heavy selling at other points in the list, attributed to the same source. This development put an end quickly to an upward movement during the first hour, led by New York Central, which seemed designed as a bull demonstration interest. When this demonstration was seen to fail of its effect, speculative interest became stagnant. Reports of strikes at some of the colleries in the anthracite releclines in the United States Steel securities, coming at the same time with a meet- \$3,442,350. ing of the finance committee of the corporation, had a decidedly unfavorable effect. Both stocks fell over a point, and the

The feature of the day was the wide declines among dormant stocks, made necessary before a sale could be effected. Lack- 17c for checks. awanna was sold down 9 points, after a preliminary rise of a point. Lake Erie & Western preferred and Cleveland, Lorain & Wheeling preferred each dropped 5 points on single sales; Westinghouse Electric, 4; Virginia-Carolina Chemical preferred, 3%, and New York Dock preferred, 24. The expected judicial decision in the Northern Securities case came in for considerable discussion in connection with the points left uncovered by the decision in the Southern Pacific injunction case, and the possibilitles lying in the Northern Securities decision were believed to have a good deal to the last call.

do with the weak undertone of the market. Bonds were dull and irregular. Total sales at par value were \$1,750,000. United States threes, coupon, advanced 1/4 per cent., and the threes, registered, 1/2 per cent. on Following are the day's share sales and the recorded price changes:

IMPETUS OF FINE WEATHER.

Stronger-Dry Goods Dealers Busy -Grain Arrivals Moderate.

few days indications are that there will be no serious interruption to the volume of ing liberally of the best grades of goods, and the traveling salesmen report an exadd that dry-goods prices are now higher weeks ago. Poultry and butter are very grapes, lemons and pineapples are in good request at steady prices. The hide market continues somewhat stronger at unchanged prices. The same remark will apply to leather, trade in the latter being unusually active. Confectioners re-port trade as unusually good for the sea-

The Indianapolis Grain Market.

son, with prices much the same.

terday showed that it was difficult for the dealers to fill all orders as promptly as desired. Track bids, as reported to the dealers to fill all orders as promptly as desired. tention to it. On more than one occasion a law for the protection of the flag has been offered, but it has always failed of passage. Yet its desirability is not open to question. In several States such a law exists. Congress, however is less sensiexists. Congress, however, is less sensitive to the national honor. To the eye of any person of taste the degradation of the flag for the purpose of private gain is repulsive. There are enough legitimate forms of advertising without this. Nor is it likely that any form which creates resentment droscoggin, 9-4, 18c; Androscoggin, 10-4, 20c.

BUSINESS IS IMPROVING UNDER THE

Butter and Poultry Firm and Eggs

With the fine weather business conditions continue to improve, and within a trade. The dry-goods business continues on a large scale. Buyers come in from the country in considerable numbers, takcellent business in sight. Firm prices of all dry-goods lines in the first-hand market is again important enough to demand special mention. It is hardly necessary to than at any time during the past year. But few new features manifest themselves in the grocery line. Country grocers buy in considerable quantities, and as the mud embargo is relieved towns off the lines of railroads are more liberal buyers. Rice and dried fruits, canned goods and spices are in steady call at unchanged prices. The demand for sugars, coffees and teas is up to the average, and no diminution in requirement is looked for in the immediate future. In the country produce department prices are strong. Eggs are now bringing a cent and a half more than two firm, notwithstanding increasing receipts. New potatoes are on the market, and never before sold so low in April; in fact, almost all new vegetables are selling below the 6 per cent., closing at 5@6. Time money nominal; all periods, 5@5% per cent. Prime average prices, as compared with past spring seasons. Oranges, bananas, Malaga mercantile paper, 51/26 per cent. Sterling exchange weak; actual business in bank-

NEW YORK, April 7.—The dry goods market has been uneventful and unaffected by any reports of export business at a lower figure than the generally quoted prices. With raw cotton the generally quoted prices. With raw cot figures maintained at a high level there see to be little opportunity for the manufacturer

The Newest New Woman New York Letter.

Another arrival by the Oceanic was Miss Norma Munro, the publisher, who ap-peared on the passenger list as follows: 'Miss Norma Munro and man serva Whenever Miss Munro appeared on deck or in the cabin she attracted much atten-tion on account of the novelty of a man servant traveling with a young woman

Reduced to a Paragraph. Chicago Post.

Reduced to a paragraph, Mr. Roosevelt's address at the Auditorium will run like this: The sort of a Monroe doctrine we have doesn't matter so much as the sort a navy we have to give it the force of law.

in values. It was generally admitted that after the early arrivals had been ex- Kincheon Morgan et ux. to Mary J. hausted, were in no case to exceed 5c higher than yesterday, and finally, with packers practically out of the market, a few that came in very late had to sell at very little if any better prices gain in prices was lost. There seems to be ng but very light receipts that would cause traders to expect that prices will advance, and recent experiences prove that it does not require a really excessive supply to produce lower prices. Sales to-day ranged from \$7 to \$7.60, and the bulk of the supply sold at \$7.25@7.45, although there were several sales of light hogs at \$7.15@ to best pigs..... Sheep—Receipts, 200; shipments small. The receipts to-day were a little larger than a week ago and a year ago. The supply, however, was not large enough to interest all buyers to any great extent. There was a very fair demand from the local trade, and the trading was as active as might have been expected at prices at least steady compared with the way equal kinds sold at the close of last week, so far as old stock and yearlings were concerned. There old stock and yearlings were concerned. There were no lambs here good enough to bring over 7 and there were not enough sheep in the conlambs were very irregular, and salesfor spring lambs were very irregular, and salesmen declare that a difference of \$2 per 100 lbs was made in prices to-day. A few bunches sold early at \$12, but later it was said that equally as good kinds sold at \$10@11. Such conditions, of course, are unexpected, and shippers should remember that prices of this class of stock can be reduced very rapidly. The general market for sheep and lambs appears to be in a healthy condition, and larger supplies could be used. Quotations:

the division of redemption, shows: Fairly Firm Opening Soon Overcome High- Low- Closing fairly firm. Professionals were not long in deciding what position to take, for after ging tendency, and on heavy selling of

Southern Pacific on liquidation by pool interests the general list was sympathetically affected. The dissolution of the Southern Pacific pool on Friday was expected to influence the stock materially over a three days' holiday this week. The only rail-way stock that showed exceptional strength was Union Pacific during the forenoon session, and it was reported that the Harriman interests were accumulating stock. The continued liquidation of Southern Pacific during the session had a depressing influence on the general list. There was an apparent inside selling of Copper, supposedly for the purpose of acquiring stock. There was liquidation in Steel, and Colorado Fuel and Tennessee Coal were weak in sympathy. The market was professional. Public interest was taken, hence it was difficult to say how long this kind of trading will continue. [A. R. Thompson & Co.'s Telegram.] NEW YORK, April 7.-It is a matter of doubt whether sales of Southern Pacific were liquidation or mostly matched orders

it is hard to form any opinion as to immediate movements in prices. Congress ought to give full effect to a recent decision of the commissioner of patents by appropriate legislation. Some time

taking from it its patriotic significance and sanctity." This opinion has been exthat any form which creates resentment

Spelt is a peculiar grain, somewhat simllar to wheat, and its cultivation is strangely limited to a district embracing Wurtemburg, the Grand Duchy of Baden, Alsace and Bavarian Suabia. It is a curious circumstance that while almost all Latin countries depend almost exclusively upon wheat for the manufacture of their staple article

at Washington.

of diet-bread-in this carefully defined district spelt is the universal substitute. Spelt is very much like wheat, and its flour ranks next to wheat in nutritive value The principal difference between the two grains is that spelt is covered with a hard outer hull, which cannot be removed by threshing. Special milling machines are employed to separate this hull from the
